Procedures for Obtaining Frozen Bovine Semen.

ORDERING: Give the name, address and phone number of the person to whom you wish semen to be shipped. A minimum semen order of \$100 will be accepted. Full payment absolutely due before semen shipment. No Exceptions. Handling charge of \$25 is made on each order less than 100 units. This is for lease of a liquid nitrogen shipping unit and a fill up of L.N. All freight and handling fees are prepaid on 100 units or more within USA. Dickinson Cattle Co., Inc. guarantees that semen shall arrive in good condition. You are welcome to pool orders to go in one shipment and take advantage of discounts and save on shipping costs. A 10% semen discount is available on purchases of 20 units or more on most bulls. (when ordered in increments of 5)

SHIPPING: All semen shipments are handled by Dickinson Cattle Co., Inc. Semen shipments will be made in vapor shippers by UPS to address specified. Shipping charges will be prepaid with check, Mastercard, or Visa - or sent collect. Examine the container upon delivery for damage. If the tank is damaged, an insurance form needs to be filled out immediately. The inside of the tank must still be cold with L.N. vapor and frost. If the tank is warm, contact DCCI immediately. Do not assume the semen is all right. If the semen appears damaged, call Dickinson Cattle Co., Inc. immediately concerning procedures. Refusal to comply with insurance claim procedures will release Dickinson Cattle Co., Inc. and UPS from obligation to replace destroyed semen or pay insurance claims.

TRANSFERS: Semen should be transferred from the shipping unit to your L.N. storage tank immediately upon receipt. A UPS call tag will be issued for the shipper. UPS should return to pick it up at the same location a few days after you receive it. If UPS does not pick it up within a week, please call Dickinson Cattle Co., Inc.

DCCI features one owner semen.

With only a few exceptions on some of the older sires, most bulls were collected, and owned by DCCI. The only time semen has been out of the DCCI vault is when shipped to you, the buyer.

35000 Muskrat Rd. 🐄 Barnesville, OH 43713 USA

Phone: 740 758-5050 🐄 FAX: 740 758-5114

www.texaslonghorn.com

REGISTRATION: Calves conceived from Dickinson bulls are all acceptable for registration as per the rules and regulations of the respective associations. A.I. dates and records should be carefully recorded at the time of insemination. Registration application forms and certificates for each breed association are available from Dickinson Cattle Co., Inc.

WARRANTY: Frozen semen sold by DCCI has been collected and stored in accordance with professional recognized practices. DCCI makes no warranty of any kind concerning conception, fitness for a particular purpose, safety of inseminators, damage or loss caused to persons, animals, or property by negligence or any handling procedures. In the event semen is damaged in transit from DCCI or proven unfit for services as intended due to reasons under the control of DCCI, semen will be replaced for the exact amount of purchase with the same or alternate sires owned by DCCI. No replacement is available on deceased bulls or sires not owned by DCCI.

If you need a Cryogenic container to store semen, DCCI can supply it. DCCI is a dealer for MVE and International Cyrogenics tanks. Long-term storage and vapor shipping tanks are both available.

The tank that we recommend most often for the small ranch is the Arctic RX-22 or MVE DOBLE-20.

The Doble-20 holds either liquid or vapor with a liquid hold of 125 days and vapor of 21 days with a total of 660 straw capacity.

“Professionally handled semen for the serious geneticist since 1970.”

Bulls available in Canada are:
 Not Gunna Senator
 Tabasco Zhivago
